

Hi all pool teams.

Unfortunately, the Valencian Government has put a ban on table games and other things which includes pool games. This means that if your venue is found to be breaking these new rules, the owner of the venue, plus the people playing pool can be fined. I have not been able to confirm what these fines are, but obviously, they are to be avoided.

Please note, these new rules are nothing to do with The Costa Blanca Pool League. I am only advising you all of the current situation. It is a shame as I was looking at the possibility of re-starting the league on the 3rd of February, playing the 3 games which would have completed the first half of the season, then going into the team knockout, doubles, and singles. That would have finished the season about the middle of April. However, this is looking more and more improbable. I will keep all informed should things change.

Play well and stay safe

Stan West
